The Saddleback Valley PONY Family

The philosophy of Saddleback Valley PONY is to provide a playing environment that allows players to enhance their skills while at the same time have fun. Our intent is to create a positive learning atmosphere for the growing youth of our community by improving their skills in the game of baseball and developing strong character traits. These alternate avenues of team formation are for the benefit of the youth to add to the enjoyment of the game while maintaining community spirit. As a participating team, regardless of the level of participation selected above, you are a member of the SVP family – a family that plays together and works together. Respect for the officials, home and away fields, players and opposing teams should propagate throughout participating teams.
